

Research Internship Program

Program Overview

St. Luke's University Health Network (SLUHN) offers current undergraduate and graduate students the opportunity to apply for the **SLUHN Research Internship Program**. The program is designed to assist students in the completion of curriculum requirements or gaining voluntary experience in research through training, shadowing, and hands-on experiences related to the conduct of research and Quality Improvement projects, regulatory and IRB task, research billing functions, literature reviews, data management, and other clinical trials and research related functions.

This program is designed to expose students to several facets of clinical trials and research; based on individual interests, and guide them in making a career choice. During the Internship program, students will be required to attend assigned research meetings and symposiums, complete all assigned tasks within deadline given, and adhere to the schedule as agreed upon prior to start date. Students are required to complete a minimum of 8 hours per week (128 hours per semester).

Please contact Research Integration for a brief description and application package.

Program Requirements and Application

Applicants must have completed at least 30 college credits with a minimum of a 3.0 CUM GPA to be considered for the SLUHN Research Internship.

To apply for the **SLUHN Research Internship Program**, please send the following to:

St. Luke's University Health Network
Clinical Trials and Research
801 Ostrum Street, EW2
Bethlehem, PA 18015

For further consideration, all applications must be received by the dates listed below. Only applications with all the submitted requirements will be considered for review.

Application deadline dates:

October 1 (Spring Semester: Jan. - May)
February 1 (Summer Semester: Jun – Aug.)
April 1 (Fall Semester: Sept. – Nov.)

1. **Research Internship Application** ([complete this link](#))
2. **Letter of intent** (personal statement) addressing:
 - a. why you want to intern in research
 - b. previous experience that supports this decision (include number of hours completed in research)
 - c. what interests you in healthcare
3. **Two Letters of recommendation** (on letter head and signed) from your professional advisor or other supervisor noting interpersonal skills, work ethic, and academic abilities
4. **Current resume**
